**Examiner's Amendment**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

This application is in condition for allowance except for the presence of claims 1 and 9-28 to inventions and/or species non-elected without traverse. Accordingly, claims 1 and 9-28 have been cancelled.

In the specification, page 1, line 5, after "2001", -- , now U.S. Patent No. 6,731,122, -- has been inserted.

**Reasons for Allowance**

The following is an examiner's statement of reasons for allowance: No reference was found anticipating or a combination of references found making obvious a method of testing an electronic device on a wafer comprising driving a second light source external to the electronic device with an electrical output from the electronic device on the wafer, supplying an optical output of the second light source to a photo detector, examining an electrical signal output from the photo detector and packaging a first light source with the electronic device.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Art Unit: 2829

**Examiner's Comment**

Claim 8 was previously withdrawn for being drawn to nonelected inventions and/or species. Because claim 8 is dependent on allowable claim 7 and contains all of the limitations thereof, claim 8 has been reinstated and is allowed.

Claims 2-8 are allowed.

Any inquiry concerning this communication should be directed to Ernest F. Karlsen at telephone number 571-272-1961.
